NURTURING CHAMPIONS

TERM 2 ISSUE 1 NEWSLETTER

Dear Parent/Guardian,

We hope you are doing great and are keeping well. As we approach towards the end of term 2, let's reflect on the amazing progress and achievements of Term 2-2024 so far.

This newsletter covers exciting events, milestones, and important announcements as we bid the kids farewell for a well-deserved break. As always thank you for your continued support.

The 3rd 100th Mark

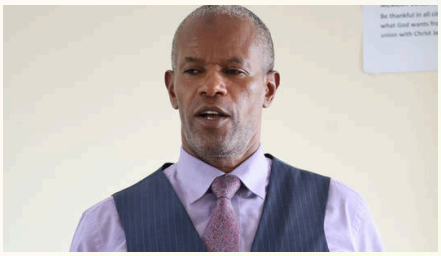

We began our term with our continued cake-cutting tradition of the 100th mark and thanksgiving ceremony, and we are proud to announce that we have now reached the 300th mark!

Thank you to our parents for showing confidence in the services we offer and referring more families to us. Asanteni sana for being our partners, and may we continue to nurture champions together

Celebrating Our Little Champions!

Our PP1 and PP2 superstars rocked the Embakasi Cluster Preschool Games! They bagged 4th place out of 24 schools and aced Musical Chairs (girls), Boys Race (3rd overall), and Relay Races both boys and girls (2nd overall).

The kids had so much fun showing off their champion spirit! We await the next games.

World Environment Day

On World Environment Day, our school joined hands with the Njiru Sub County Climate Change Action Group for a Kamulu Market cleanup and tree planting at Ndia Park. Ndia park is a community park revived by the action group and community members.

Twelve members from our Environment Club participated, forging strong bonds with fellow environmental champions and the Sub County team.

Friendly Match Against Jewel School

On 08.06.2024, we participated in a friendly football match against Jewel School in Syokimau. Here's how our teams performed:

Age Group	CRA-CHAMPS	JEWEL SCHOOL
Under 7/8:	1	0
Under 9/10:	1	0
Under 11/12:	2	1
Under 13/14:	1	2

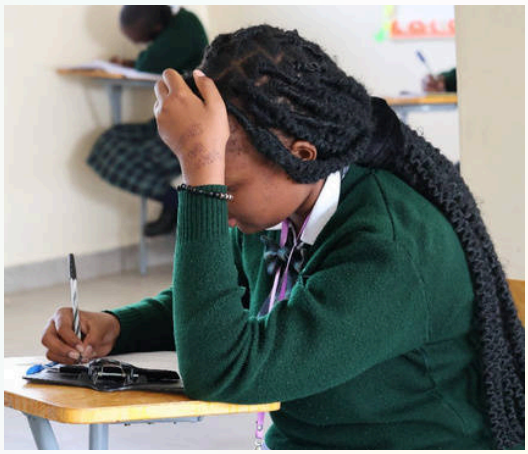

Age Group	CRA-CHAMPS	JEWEL SCHOOL
Under 7/8:	1	0
Under 9/11:	2	4
Under 11/12:	1	1
Under 13/14:	1	3

Our players displayed great teamwork. Congratulations to all our young athletes! Scorers for the match were Rudisha G7, Graham G2, Maleek G3, Mumo G4, Jamien G5, each with one goal, while Ethan G6 and Joshua G6 scored two goals each, and Majeston G6 also netted two goals.

Cluster Mathematics Contest

Our Grade 8 learners participated in a math contest aimed at exposing them to a competitive environment and learning from peers within the cluster. Our goal is to nurture well-rounded champions academically and in terms of talent.

Career Days

Our Grade 1-3 learners held their career day, and it was amazing to see them display their future aspirations by dressing as the people they hope to be. Parents and teachers, all we can do is guide them in that light and support their dreams.

New Clubs on the Block

We are excited to announce the launch of two new clubs: the Environment Club and the Journalism Club. If your child is enthusiastic about media and communications or loves everything about Mother Gaia, encourage them to join. These clubs offer great opportunities for students to explore their interests and develop new skills.

Exciting School-Based Assessment Projects Underway!

Guided by their amazing teachers, students across grades 3, 4, 5, 7, and 8 have been diving into hands-on KNEC School-Based Assessment projects.

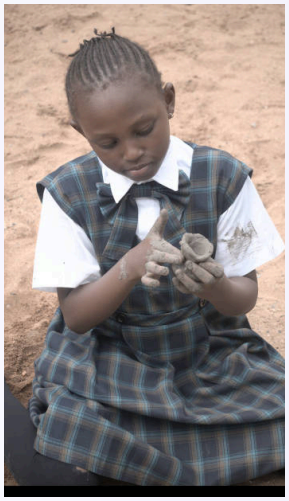

The government provided a variety of projects that our learners tackled. Here's a peek at what they were up to:

- Musical Instruments: Students crafted their own musical instruments, blending creativity and craftsmanship.
- Pollution Detecting Gadgets: Young innovators developed gadgets to monitor and address air pollution.
- Recycling Garbage Trucks: Future engineers designed garbage trucks that sort and recycle trash.
- Culinary Adventures: Aspiring chefs learned to cook delicious and nutritious vegetable dishes.
- Urban Farming: Students explored different land preparation methods and set up urban farms.
- Clay Art: Creative minds used clay to make beautiful pots, cups, and vases.

Asanteni sana for being our valued partners in education. Together, we are nurturing champions and laying the foundation for future successes. Let us continue this journey of growth and excellence, hand in hand.
